ORIGINAL

Dear Commissioners:

On May 19, 2016, I watched the live broadcast of the Workshop which provided me with useful and interesting information . It is my opinion, that all affected individuals in attendance worked toward feasible solutions with the Commission. "However, all involved must work to create an environment that facilitates the acquisitions. If not, nothing will really be accomplished."

Everyone should have access to clean water. However, no company should have to expend all its resources such as money, time, or energy in supplying water. Moreover, I strongly believe Consolidation, will settle the issues at hand.

Anyone who desires to be an intervenor in a rate case should be permitted. We are customers who pay the water companies. It is unfortunate that the ACC's process is so expensive for an average rate payer. After all isn't It is our civic duty to be concerned and to get involved. Arizona must be determined to seek a resolution in these water problems now. These issues have plagued us for much too long.

Thank you for your time and dedication to our great State of Arizona.

Sincerely,

Mary Ann Hughes
